DECEMBER 2021 E-JOURNAL

BUILDING FINANCIAL SERVICES LEADERS GLOBALLY

A CONGRATULATORY MESSAGE FROM

WILLIS WONG WAI KWONG

President, GAMA Global – Hong Kong

It is my great honor and privilege to write our congratulatory message to each awardee in all the GAMA chapters. I hope this hearty congratulation from Hong Kong reaches every one of you. You earned your achievements, and may it always reminds you of your dedication. Give your best always.

The path of success is always tough, and only those who are ready to take on challenges and have the courage to win are worth being awarded for these achievements. We congratulate you, as you possess a treasurable personality. Keep moving ahead in life, for we believe there is much potential to be unleashed that could lead to accomplishments far beyond imagination.

Yet, remember to stay steady with each footstep you take because while running fast is easy, stumbling and falling are easy too. Most of us are taught to act quickly under the stress of multi-tasking, which makes it understandable that we have the urge to prioritize speed over quality from time to time. However, if we pause for a moment and relive all the successful moments, we would notice that it is not speed but quality that brought us to the point we are today. My greatest wish is that every practitioner in the industry would remember their purest intention of serving people through insurance; I hope we never forget what our mission is, no matter what we come across in the future.

Similarly, the General Agents and Managers Association of Hong Kong (GAMAHK) remains the only professional association representing the interests of life insurance managers in Hong Kong. GAMAHK has not for one second put aside its mission of raising the standard of professional management amongst life insurance managers in areas of recruiting, training, coaching, and inspiring subordinates. We have long been providing professional training courses and workshops to our members. We remain dedicated to building up the platform of information and knowledge sharing among the professions in the industry through seminars and conventions and, of course, acknowledging the effort made every year by offering GAMA International Awards to outstanding members.

To go one step further, we endeavored to build up regular communication channels with different stakeholders and governmental bodies, such as Insurance Authority (IA), Mandatory Provident Fund Schemes Authority (MPFA), and the Independent Commission Against Corruption (ICAC). As a leading organization that has served the industry for years, GAMAHK has always addressed issues and concerns raised by its members and sometimes by the whole insurance industry. We do this because we are gatekeepers who maintain the balance between striving for the best interests and guaranteeing professionalism within the industry.

GAMAHK will remain intact and continue upholding its core values, and I hope all of you will do the same. I believe that together we could build a brighter future for the development of the industry.

Thank You

Willis Wong Wai Kwong
